MIRRORS

CONVEX

1/4 DOME

1/2 DOME

FULL DOME

For an unobstructed view use a convex or dome mirror. Mirrors provide vision around corners, blind spots, and aisle ways. Ideal for doorways to see who is coming and going.

So which mirror should you order?

30-45cm 0-5 metres 60-76cm 10-15 metres

45-60cm 5-10 metres 76-90cm 15-30 metres

Judge the distance from the person to the mirror, then from the mirror to the object to work out the distance so you know what size is needed.

INDOOR - WALL BRACKET

MM450ID - 450mm Indoor convex

MM600ID - 600mm Indoor Convex

OUTDOOR - COMES WITH POST MOUNT BRACKET

MM600OD - 600mm Outdoor Convex

MM800OD - 800mm Outdoor Convex

****Please phone for pricing on other sizes and styles and advise if indoor or outdoor is required.**
